TELEPRESENCE ROBOTS

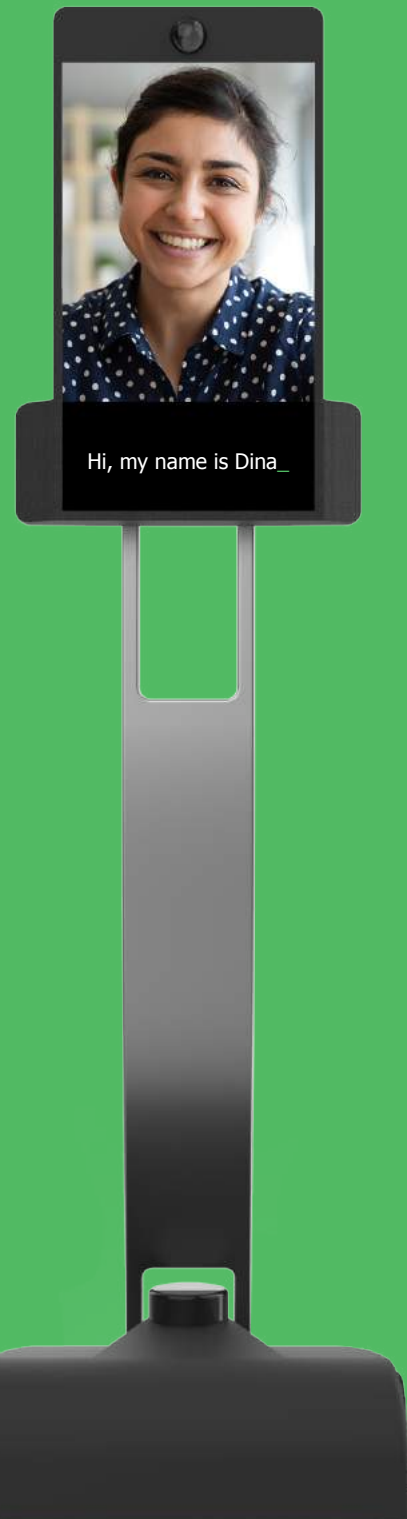

Keep Distance to Prevent Infections • Social Inclusion • Save CO2 Emissions

GoBe Robots

GoBe present, everywhere, anytime.

GoBe Robots is all about connecting people, anywhere, anytime without travelling, without losing time, without exposing the globe to CO₂ pollution.

With **GoBe** Robots we give you the perfect ability to Go & Be present.

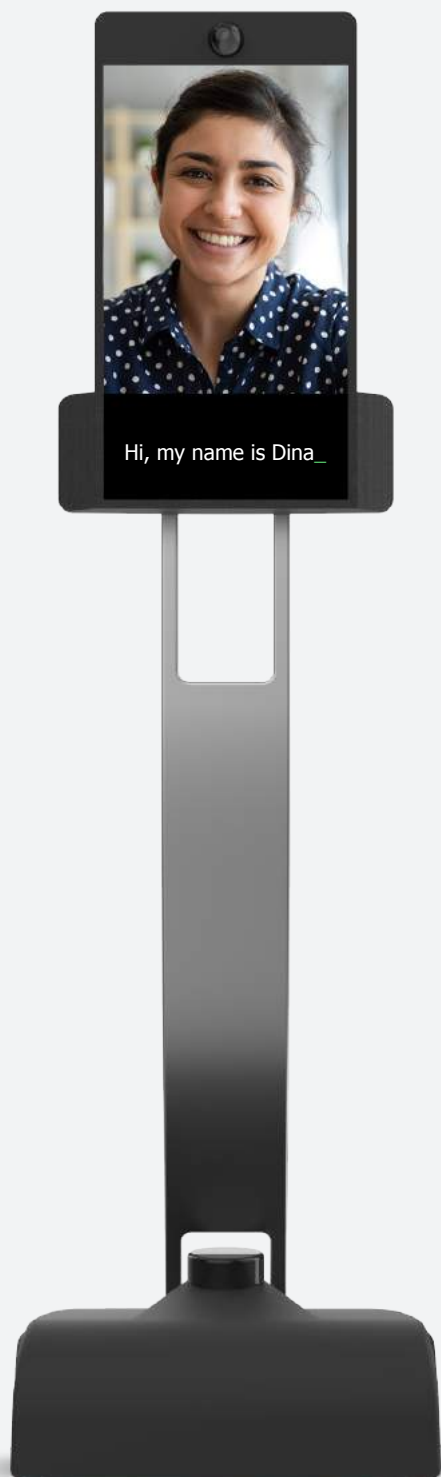

GoBe Robots

GoBe mobile

With GoBe Robots you are not only present on a wall mounted screen like known conference systems, you physically move yourself around the office, together with your team.

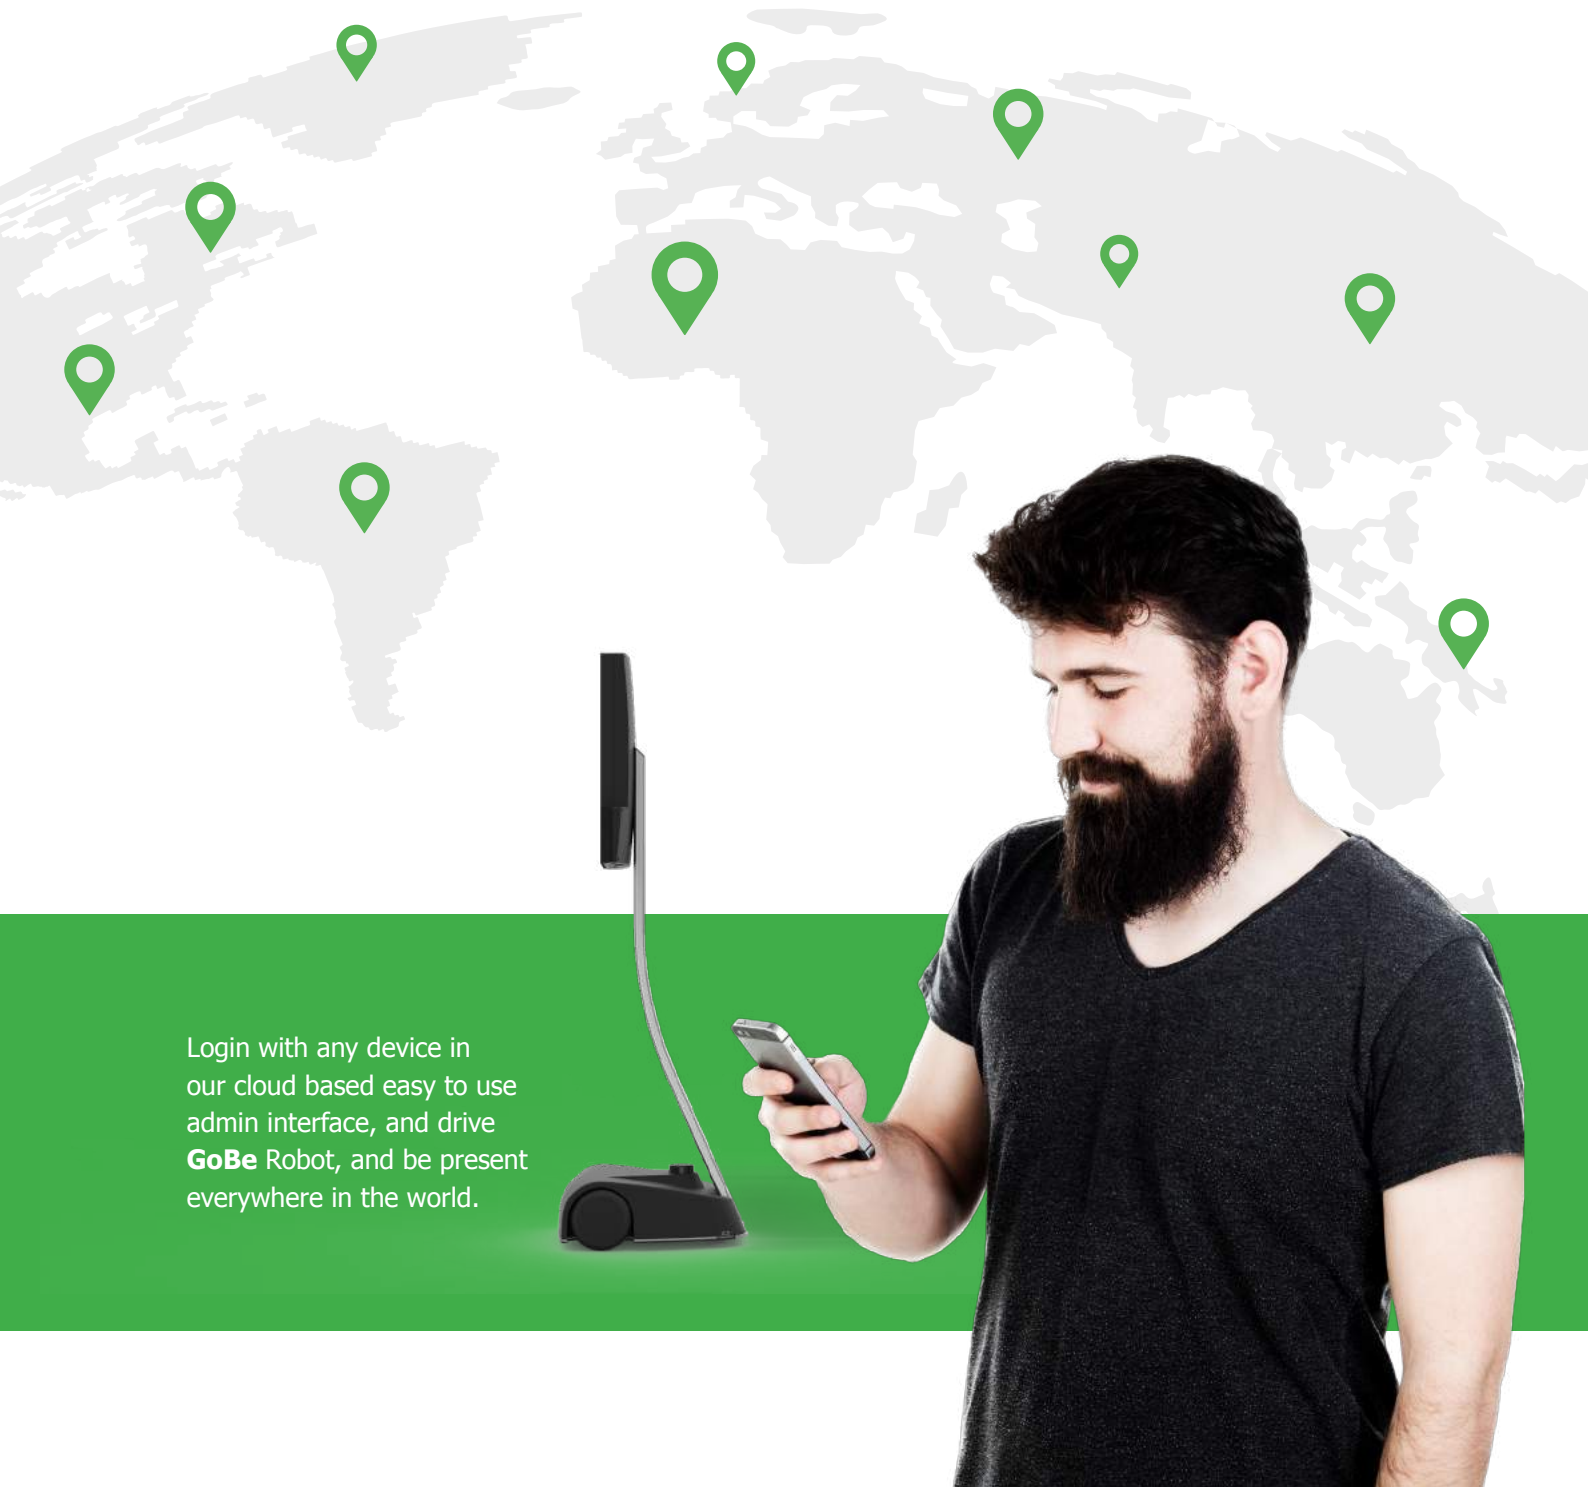

GoBe Robots

Expand Your Reach

With a single click - meet up with remote clients, monitor overseas manufacturing, or consult with dispersed team members without traveling.

Login with any device in our cloud based easy to use admin interface, and drive **GoBe** Robot, and be present everywhere in the world.

GoBe Robots

41,4 cm. / 30,4 cm.

42 cm.

15,2 cm.

45,6 cm.

Size Matters

When it comes to presence, GoBe Robot provides you with the perfect height and size, giving you the best ability to interact with your surroundings.

GoBe Present everywhere, anytime!

Hi, my name is Dina_

“

In order to oversee our factory in China, we are able to remotely connect; we also allow our customers to remotely connect to the GoBe Robot and view their own production and inspect their goods.

Gil Hetzroni, CEO, Power Bright

Interact Effectively

High-quality audio and video capabilities ensure that you'll get your point across, while allowing you to listen and read the room as if you were there.

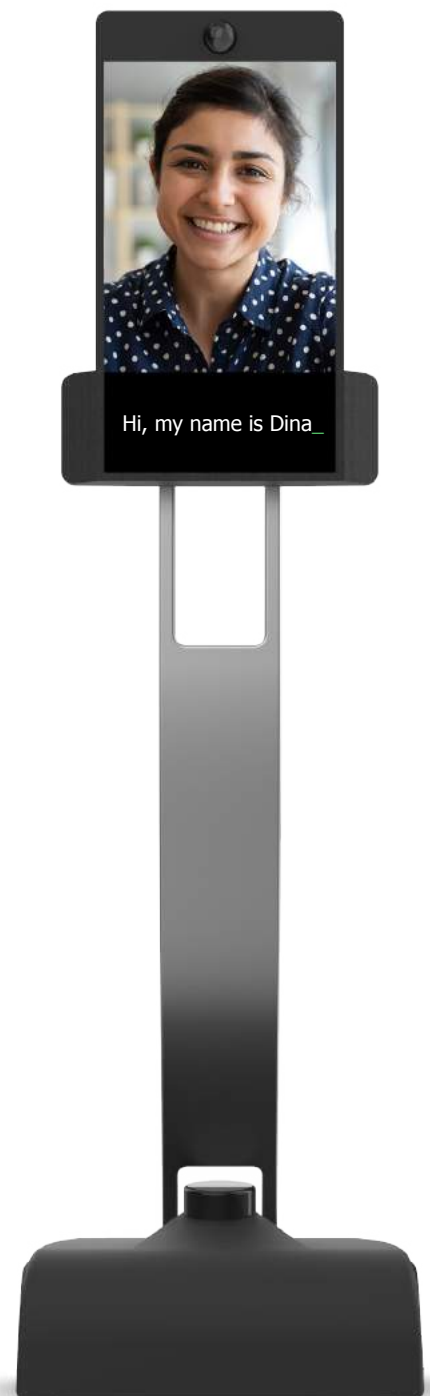

Applications for everyone

GoBe Robots is the perfect team player across many different industries
