## Our Company

Qaboha Farming Pty Ltd is a South African owned manufacturing, developing, processing, sales and marketing company and is one of the most successful food developers in the Southern Africa's Retail food market.

Established in the early 2015, Qaboha Farming has a range of quality products that are finding its way and the availability on supermarkets South Africa wide. With a passion for good food and a focus on great quality, our aim is to bring innovative foods to our consumers.

The Qaboha brand boasts over 3 years heritage and specialises in bringing traditional and emerging local flavours to South African consumers. We pride ourselves on carefully selecting from dedicated producers, who share our belief that quality has no compromise.

We hope that you enjoy your Qaboha Farming's products as much as we love creating them.

## Our Business

### Who We Are

Africa is our home, and we are focused on driving her growth. We apply world-class science and the most productive research and development in the food industry to achieve a step change in food productivity.

### What We Do

We provide quality products and solutions to help our clients achieve their goal for a growing population. We work by looking at agriculture through the eyes of growers, and by developing world class products through partnership.

### How We Do It

At the heart of our business are innovation, ethical operations and a collaborative mind-set. Collaboration is essential to our innovation. We work in partnership with the likeminded and we encourage innovators to reach out to us.
