

HAIR TREATMENT SPA.

The Afrotexture Hair Treatment Spa is a health and beauty clinic designed to assist you in achieving healthier strands and regaining confidence.

The clinic specializes in treating Black (afro-textured) hair and the best diagnosis is guaranteed with our qualified Hair Loss Consultant.

Our revolutionary organic treatments have proven to treat hair loss, scalp infections, scalp psoriasis, seborrheic dermatitis, and other scalp-related concerns.

Our organic products and treatments are suitable for both men and women of all ages and children as young as 2 years old.

ABOUT US.

Afrotexture is an organic and traditional haircare and beardcare range developed using indigenous ingredients to suit the demands of African strands. Our organic treatments are formulated to revolutionize the way that African women care for their kinks and coils. We offer in-depth hair consultations by appointment to provide clients with professional advice on the available treatments that are best suited for their hair type.

The expertise of Afrotexture is concentrated on the in-depth study of black hair into healthier and natural approaches to nurture African kinks and coils without the use of harmful chemicals and tools that may trigger Alopecia symptoms and other scalp-related concerns.

The clinically validated growth ingredients used in our products have shown promise in treating hair loss and balding, notably in alopecia conditions.

2024 Afrotexture Business Brochure

VISION.

To correct and improve the socio-economic imbalances of the past on how black hair has been perceived and maintained.

Train and educate Hairstylists on prioritizing hair health.

We aim to be the earth's most customer-centric Hair Treatment Spa where people can come and discover all their hair solutions for their hair threats and struggles.

MISSION.

Our mission is to create products, methods, and techniques and offer hair services prioritizing hair health.

Offer hair loss consultations, prescriptions, services, and treatments.

Continuously raising awareness and educating our clients on how to nurture and maintain their Afro-textured hair.

Providing customers with the best hair care products tailored to meet the nourishment that kinky and Afro hair needs to grow and thrive. -A unique blend of all-natural ingredients that are NOT harmful to the scalp and skin.

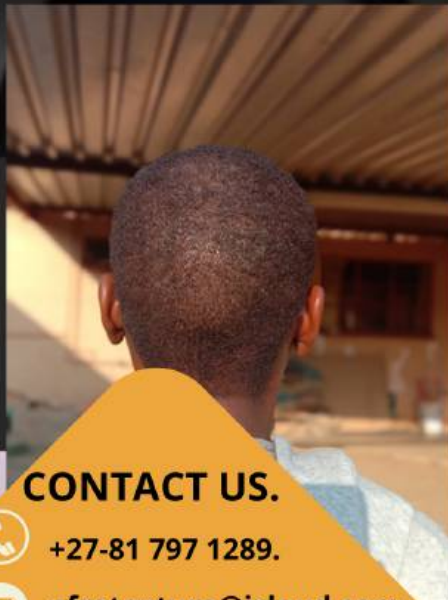

The objective of the hair consultation service is to determine a client's hair type and offer possible treatment options that are best suited to their hair requirements.

GOALS.

This will help us grow our sales margins out of our District by having Suppliers across all provinces, begin to export products across the African continent.

As we've already gone training and certified for global exports. We've also attained commodity codes for our products.

Introduce Hair Therapy Massage with the recent technical tools within the industry.
